EDUCATION

University of Santo Tomas

Bachelor of Science in Computer Science, Data Science Specialization Track

Sampaloc, Manila

Expected July 2027

- Dean's Lister
- Relevant Coursework: Data Structures and Algorithms, Machine Learning, Data Analysis and Visualization, Data Warehousing, Advanced Probability and Statistics, Software Engineering, Information Management, Numerical Methods.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, SQL, HTML, CSS

Frameworks and Libraries: React, Next.js, Node.js, FastAPI, Electron, scikit-learn, pandas, NumPy, Matplotlib

Data and Analytics: Power BI, Tableau, Tableau Prep, Jupyter Notebook, Microsoft Excel, Apache Airflow

Databases: PostgreSQL, MySQL, SQLite, Supabase

Developer Tools: Git, GitHub, Docker, Vercel, Visual Studio Code, NetBeans

PROJECTS AND RESEARCH

Sentiment-Based Detection of Customer Dissatisfaction in Taglish E-Commerce Reviews | Project Lead

Undergraduate Thesis | University of Santo Tomas | Python, scikit-learn, Transformers Feb 2026 – Present

- Fine-tuning an XLM-RoBERTa model to identify dissatisfaction signals in code-switched Filipino-English (Taglish) product reviews.
- Curated and annotated a 10K+ dataset of Taglish e-commerce reviews for model training and evaluation.
- Benchmarking model performance against established BERT-based baselines.

Theresa Shoes | Inventory & Sales Management System

Jan 2026 – June 2026

Client-based Project | Lead Developer

- Developed a desktop application to digitize a local shoe retailer's made-to-order workflow.
- Built a centralized system for managing orders, inventory, and sales with role-based access control.
- Designed and integrated a REST API with automated database migrations and an Electron-based frontend.

ShopZada | E-Commerce Data Warehouse & Analytics Platform

Developer

Nov 2025 – Dec 2025

- Building and maintaining ETL pipelines using Apache Airflow to automate data ingestion across 1M+ records.
- Contributed to a Kimball-style dimensional model in PostgreSQL and supported Power BI dashboard integration.
- Collaborated on analytical query development for sales, customer, and product performance reporting.

EXTRACURRICULAR EXPERIENCE

AWS (Amazon Web Services) Learning Club – UST

Founding Member

Nov 2025 – Aug 2026

- Collaborated with members to plan activities and learning initiatives.
- Assisted in establishing a student-led learning organization.

UST Computer Science Society

Oct 2023 – Aug. 2025

External Affairs Staff

- Coordinated with external partners, guests, athletes, and gamers for department-wide events and organization activities.
- Assisted with external communications and logistical coordination to help ensure smooth event execution.

UST ICS Student Council

Aug 2023 – May 2024

Sponsorship Staff

- Coordinated with potential sponsors to support student-led events and initiatives.
- Assisted in securing sponsorship partnerships by handling outreach, follow-ups, and sponsor coordination.

Hackfest 2025: Horizon

Google Developer Student Clubs Loyola

Apr 2025

- Designed and developed a prototype for BayanX, a community assistance platform where users could request or offer help.
- Contributed to the prototype's interface, user flow, debugging, and testing during the 11-day hackathon.
